Thame Workholding is the trading name for Thame Engineering Co Ltd., a well-established specialist manufacturer, designer and supplier of workholding and automation solutions. Our Long Crendon facility houses an impressive machine shop alongside the sales, accounts, design and production offices. Our customers, both domestic and international, are from varied sectors including aerospace, automotive, medical, F1, oil & gas, marine, shipping and many more.

PROJECT/DESIGN ENGINEER

Reporting to the Engineering Manager, the position is mainly office based but will occasionally involve visits to customer premises and exhibitions. You will liaise closely with sales office personnel with regard to customer requirements and expectations and with customers regarding technical detail. You will need a sound knowledge of design principles as well as the flair to create workable solutions to unique applications. You will manage projects from customer order to despatch covering every aspect required.

Key tasks include but are not restricted to:

- create working designs, schemes, drawings and models for standard and special products
- liaise with customers throughout projects
- liaise with departmental personnel throughout projects
- suggest manufacturing and factory process improvements
- new product development from concept to completion

Skills and experience:

- advanced level/native English language (speaking, understanding, reading and writing)
- knowledge of machine tools and mechanisms
- experience of jig and fixture and/or machine design/build
- knowledge of 2D and/or 3D CAD modelling systems
- project management
- intermediate understanding of electronic and electrical systems
- interest in and/or knowledge of automation and robotics

Terms and Conditions:

General terms and conditions of employment with Thame Workholding are set out in the staff handbook and the health and safety handbook, both of which are given to new employees as part of their induction training. Specific terms are:

- there will be a 13 week probationary period
- hours of work are 39 per week – flexible between 7am and 6pm Monday to Thursday and 7am to 4pm Friday
- competitive salary depending on experience
- holiday entitlement will be 25 days per year plus bank holidays
- pension and sickness schemes are in operation

If you would like to apply for this position, please send your CV and covering letter/email to vacancies@thameworkholding.com
